Product Designer · UI/UX Designer · UX Research · AI Product Design & Development
Bangalore, India · ka.divya3@gmail.com · [LinkedIn](#) · [UX Portfolio](#)

SUMMARY

Product designer and UX researcher with a background in Big 4 consulting and data privacy. I bring an unusually technical lens to design, having managed product roadmaps, reviewed PRDs and RFCs as a Privacy Risk SME, and built design systems from the ground up. My consulting experience at EY gave me fluency in cross-functional stakeholder management, regulatory constraints, and shipping under real business pressure. Now applying that analytical thinking and empathy-driven research to craft user-centered products that are both intuitive and resilient.

EXPERIENCE

EY India, Consultant- Cybersecurity & Privacy

Aug 2024 - March 2026

Client: Global travel & e-commerce company

- Led product development of an AI-powered Privacy Automation tool built on Glean, contributing to a 35% improvement in operational efficiency and accelerated cloud intake timelines.
- Partnered with product, engineering, and legal teams during PRD/RFC reviews to improve feature usability, reduce delivery blockers, and ensure privacy-by-design implementation.
- Developed privacy-by-design standards for AWS cloud deployments; presented recommendations directly to the DPO, laying the groundwork for future implementation.

Client: Global consumer goods company

- Delivered a data governance framework through stakeholder interviews, process analysis, gap assessments, and data mapping - directly improving privacy compliance and data visibility.

Savant Neurodivergent, Product & Brand Designer, Freelance

March 2026 - Present

- Led brand discovery workshops and competitor analysis to redefine product positioning, visual identity, and digital experience strategy.
- Designed end-to-end user flows, wireframes, and high-fidelity prototypes for the "Ambassador" module in Figma, creating scalable experiences across device sizes.
- Built a foundational design system including components, typography, colour tokens, and spacing guidelines to improve consistency, accessibility, and future scalability.
- Redesigned information architecture, landing page, and brand identity using WCAG accessibility principles to improve usability and reduce cognitive load.
- Delivered the refreshed brand and web experience, contributing to 20 new enrollments within one week of launch.

Nonlinear, UX Researcher & Designer

Jun 2023 - Jul 2023

- Led mixed-methods UX research (20 in-depth interviews, 47 survey responses, 30+ program benchmarks) to generate actionable insights on curriculum design, pricing, and delivery models.
- Translated research synthesis into insight-driven decks, wireframes, and high-fidelity prototypes for stakeholder review within agile sprint cycles.
- Contributed to the company's foundational Design System, standardising visual language to support rapid, consistent deployment across client projects.

Google Developers Student Club (GDSC), PESU, Design Team, Core Member

2022 - 2023

- Designed user-centric interfaces and event visuals, collaborating across tech and content teams while maintaining accessibility and brand standards.

- Facilitated a UX/UI design workshop for 50-80 students covering usability principles, wireframing, and Figma.

PROJECTS

Book Nook - Book Tracking Product Design & Development | Figma · Adobe · Figma Draw · Supabase · Cursor · Vercel · React · NextJS · Tailwind

Designed and built a web-first reading tracker that turns book management into a calming, visual experience through a garden-inspired reading journey. Created the complete design system, hand-illustrated UI elements, and built the product end-to-end from concept to a live deployed app in three weeks.

- Designed and illustrated the complete visual system in Figma, including custom UI elements, illustrations, interactions, and a warm, immersive reading environment.
- Built the responsive web application using React, Next.js, Tailwind, Supabase, and Framer Motion, translating design decisions into a functional product.
- Created features for tracking reading progress, managing books, and visualizing personal reading history through an engaging, emotionally-driven experience.

Cooking-Learning Application - UX/UI Case Study | Figma · Adobe · Canva

- Designed an app from research through to high-fidelity prototype : user personas, information architecture, visual design, and responsive layouts.

SKILLS

Design: UI/UX Design · UX Research · Design Systems · Interaction Design · Prototyping · Brand Discovery & Positioning · Information Architecture · Usability Testing · Affinity Mapping · Qualitative Research · Accessibility (WCAG) · AI enhanced Design · Typography · Layout & Hierarchy

Product: Product Road-map Management · AI Product Development · PRD & RFC Review · Privacy-by-Design · Agile / Sprint Delivery · Business Acumen ·

Tools: Figma (Advanced) · Adobe XD · Adobe Illustrator · Adobe Firefly · Canva · Framer · Miro · Notion · Excel

Technical:

HTML · CSS · JavaScript · Python · Tailwind · React · NextJS · Vercel · Cursor · Supabase

Soft Skills: Cross-functional Collaboration · Stakeholder Management · Systems Thinking · Communication · Analytical Problem Solving

EDUCATION

B.Tech, Computer Science & Engineering · PES University, Bangalore

2020 – 2024

CERTIFICATIONS & RECOGNITION

- **Google UX Design Professional Certificate** · Google - Wireframes, lo-fi & hi-fi prototyping
- **Programming with JavaScript** · Meta
- **Client Extraordinaire Award** - EY India, 2025
- 2nd Place, **CSS Battles** 2022 - College level

Interests

Chess · AI · Illustration · Reading
